

## NEW STAND FOR A NEW BRAND

**CV Show 2019 will be the launch event for a rebrand for one of its long-time exhibitors. Tevo Limited is pleased to announce that it has rebranded to Modul-System Limited, and will be bringing a new stand to the CV Show to celebrate.**

Having been part of the Modul-System Group for more than ten years now, the company felt that the time was right to align Tevo with the rest of the Group.

Modul-System Limited will be demonstrating a number of new products at CV Show 2019 (stand 5C30), including: an ultra-light workbench made from sandwich material; a system of roof-mounted accessories and roof bars; and an easily-transported multi-box system that comes with smart accessories and can be partnered with a matching trolley.

Also on display will be a new wireless Modul-Connect electrical system, which can be operated via Bluetooth or from an app on a smartphone. The new system will reduce fitting time for ancillary electrics, reduces the amount of wiring required and lessens the need for drilling holes in vehicles.

## EXHIBITION SPACE SOLD OUT

**The 2019 CV Show is sold out of exhibition space, reinforcing its position as the main event for the UK road transport, distribution and logistics industry – or indeed, for any company running commercial vehicles. This is a brilliant result against a background of political uncertainty and is testament to the resilient nature of our industry.**

Visitors to this year's CV Show will be presented with the largest range of options to help purchase, operate and maintain vehicle fleets, all designed to boost productivity and profit.

## SOCIAL MEDIA UPDATE

**Our social team will once again be covering the three halls of the show, capturing key highlights and utilising live video.**

Our Twitter lounges will also be returning, to provide everyone with a place to rest their weary legs and catch up on the latest updates from the show and its exhibitors. We encourage everyone to join the conversation, across multiple platforms, by tagging us in posts using @TheCVShow and #CVShow. We want to hear how your show is going!

Our video production team will also be working hard to publish daily video reviews, capturing all the best bits from the show. Get ahead of the game and subscribe to our [YouTube channel](#) today.

## FOLLOW US

Once again, we will be active on these social channels for CV Show 2019.

## A MESSAGE FROM OUR PARTNERS

### RHA Chief Executive, Richard Burnett:

“It’s extremely encouraging to know that, despite so much Brexit uncertainty, for our 400+ exhibitors it’s business as usual. Every aspect of the business sector responsible for moving 98% of the UK economy is represented.

The CV Show presents the perfect opportunity to find out about the latest developments and innovations. Despite constant legislative changes, operators are adapting and the commercial van sector is growing rapidly, as visitors will see.”

### IRTE Chief Executive, Bruce McGill:

“The CV Show is a great opportunity to talk to engineers and technicians at the heart of the industry. We will be talking to current and prospective members about

how our accreditation schemes, professional registration with the Engineering Council and new CPD platform can help transport engineers and technicians prove their competence, develop their careers and, ultimately, raise professional standards across the road transport sector.”

### SMMT Chief Executive, Mike Hawes:

“Against a backdrop of uncertainty, the CV Show has never been more important. This year’s event proves there is still so much innovation taking place, with great gains made in safety, efficiency and aftermarket services. Competitiveness is always a major issue and now, more than ever, products and services must deliver – not least in value-for-money. I look forward to seeing all the exciting new developments.”

## AWARD-WINNING ISUZU ON DISPLAY

**Isuzu’s stand at CV Show 2019 runs the risk of being buried under a multitude of trophies and awards.**

Over the last 12 months, the D-Max has won 10 different awards, so it’s appropriate that the Isuzu stand will feature the theme “Award Winning”.

A number of vehicles will be displayed, including an SSE-branded D-Max and a tipper conversion, emphasising the versatile and rugged nature of Isuzu’s famous truck.

A press event is scheduled for 10.30am on Tuesday, where Isuzu will announce

some exciting new products and talk about some of its customers in more detail.

## SITE SAFETY LIST

We take site safety seriously. All exhibitors must follow these rules during build and breakdown:

Hi-vis vests or jackets must be worn at all times in the halls and loading areas.

Contractor and exhibitor badges to be visible at all times.

Appropriate footwear must be worn. Open-toes or heels are not permitted.

Emergency access must not be blocked by construction materials, vehicles or exhibits.

Hard hats must be worn in areas of high construction or as directed by the health and safety manager.

Contractors and exhibitors must keep their space and surrounds in a safe condition.

Speed limits must be adhered to.

Under 16s are not allowed on site during build up and breakdown.

Please email Susan Kitchener, Operations Manager, with any queries: [susan@cvshow.com](mailto:susan@cvshow.com).
