**This Autumn, we're delighted to share all the latest news for the 2021 Commercial Vehicle Show. After the challenges of the last few months, we're well and truly back into countdown mode for what will be the first major commercial vehicle show in more than a year.**

### Gratitude in spades

What a year it's been! Before we go any further, we'd like to say a great big THANK YOU to all those in the road transport industry who have worked tirelessly to keep the UK moving during these incredibly difficult and uncertain times.

It will be such a pleasure to see you all again in April and praise the contribution your teams have made to help minimise disruption of crucial medical and food supplies.

As we contemplate a future that looks somewhat different to the one we had in mind at the start of this year, the importance of the commercial vehicle sector in continuing to keep the nation open for business can't be underestimated.

The "new normal" looks set to rely even more heavily on our logistics capabilities and navigation technologies, which means your presence at the 2021 Commercial Vehicle Show will be more relevant than ever before.

To date, we're delighted that already nearly 200 exhibitors have been allocated to the 2021 [floorplan](#). Our full list of exhibitors is [here](#) and is updated regularly.
